Top Revenue Category

Revenue vs Customer Satisfaction

Top 10 Categories by Revenue

Category Insight

Health & Beauty is the highest-revenue category. Categories that **generate above-average revenue while remaining below the overall review benchmark (4.04)** should be prioritized for customer-experience improvements because they combine strong commercial impact with weaker satisfaction signals.

Freight Burden vs Customer Review

Logistics Insight

Categories with **high freight burden and below-average review scores** should be prioritized for logistics and fulfillment improvements, as shipping cost may be contributing to weaker customer satisfaction.
